

Eyeglasses Teardown

to fix the frame around the lenses of the glasses

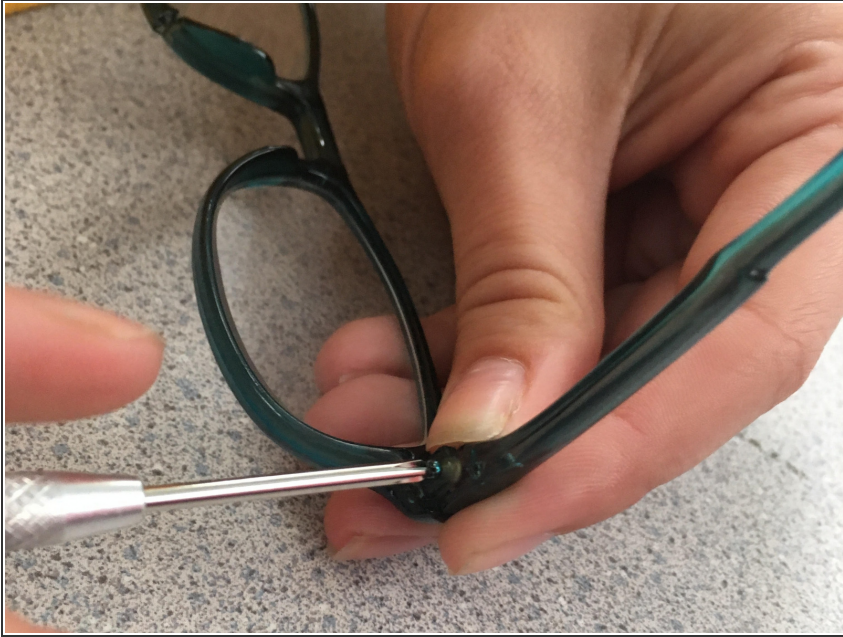

Written By: Briquel Patenaude

INTRODUCTION

you will learn how to glue and fix a pair of eyeglasses

Step 1 — Eyeglasses Teardown

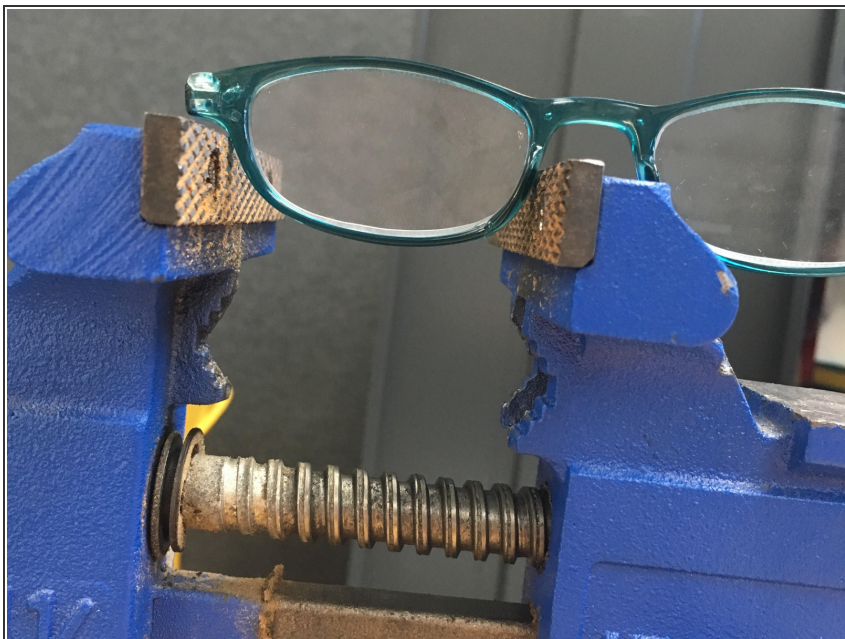

- first unscrew all screws from both sides of the glasses
- Next insert the old lense (or new one depending on how damage old one was)

Step 2

- Now glue the two broken pieces together and hold together for about 30 seconds to 1 minute

Step 3

- (Optional) place glasses in between a vice and secure to make glasses fitted nice and tug. Keep glasses in vice until fully dried
- once glue is fully dried carefully place screws back into place and tighten them all the way

To reassemble your device, follow these instructions in reverse order.
